IN MEMORIAM

In sad but loving remembrance of our dear Aunt, Alice Roberta Harris, (nee Travers) who departed this life two years ago October 18, 1918.

Days of sadness come over us,
Secret tears do often flow,
But memory keeps you ever near us,
Though you died two years ago.
Although we cannot clasp your hand,
Your face we cannot see;
But let this little token show
We still remember thee.

By her loving nieces, Margaret and Helen. 248-1c.

State Bankers Turn Guns on Reserve Body.

Washington, Oct. 21.—While a survey of the financial polices of the Government by Secretary Houston drew the attention of delegates yesterday at the general session of the American Bankers' Association convention, State bankers, in their section meeting which followed, brought administration of the Federal Reserve System under fire. They adopted resolutions "condemning and depecating methods employed by the board" in its relations with State banks which are not members of the Reserve system, although the board did not lack defenders during the discussion.

Indignation against the board's regulation compelling the collection of checks and remittance of the face amount at par was freely expressed. Governor Harding was styled a "usurper" of authority, and a committee was named to seek amendment of the Reserve act so as to "guarantee to all bankers the rights and privileges" of fixing a charge on the handling of checks drawn on all excepting local banks.

Praise For "Cops"

Police Commissioners Compliment Them on Splendid Work—To go After "Speeders"/

The members of the police force were commended last night by the board of police commissioners for the splendid work they are doing just now and for the general improvement in their work also for their co-operation.

Mayor J. M. Duncan took occasion to bring before the board this matter and his sentiments along these lines were voiced by Commissioner J. Edward Shinn.

Commissioner Herbert asked Mayor Duncan to direct the attention of the police to speeding motorists on South Alfred street. Mayor Duncan stated that this would be done and also the police were looking after speeders on North Washington street.

The need of another motorcycle to facilitate the work of the mounted officers in this work was told to the board by the Mayor.

Lawrence Padgett, the newly elected member of the force, also was complimented for his work thus far accomplished as a member of the force.

Chief of Police C. T. Goods submitted his monthly report showing that since his last report 194 arrests were made.

Cox Asks Retraction

Denies That He Demands League "Just As Mr. Wilson Wrote It."

Bridgeport, Conn., Oct. 21.—Governor Cox, of Ohio, sent yesterday a telegram to Elihu Root, asking him to "correct" what the Democratic candidate declared was a "false" statement in Mr. Root's address Tuesday regarding the Governor's position upon the League of Nations issue.

The Governor denied Mr. Root's statement that he demands the League "just as Mr. Wilson negotiated it," and called upon Mr. Root for a retraction.

In making public his telegram to Mr. Root, Governor Cox issued a statement declaring that Mr. Root and 30 other prominent Republicans signing the recent statement in behalf of Senator Harding, the Republican nominee, were "attempting to deceive the voters because they are permitting their partisanship to rise above their patriotism and trusting perhaps that the last wobble of Senator Harding may be in their direction."

Governor Cox restated his proposal to accept any reservations "helpful" to the League and contended, therefore, that Mr. Root had made a statement "which the records show is false."

$8,070,790 IS NEW CITY ASSESSMENT

Increase of $1,238,799 Over Last Year's Assessment

$28,000 YIELD TO CITY

Increases Have Been General in Most Cases Throughout the City—Work to be Reviewed by Local Board

The new assessment of real estate in the city has just been completed and shows an increase of $1,238,799 over the assessment made last year by the commissioner of revenue. The 1920 assessment gives Alexandria real estate valued at $8,070,790 against $6,831,991 of 1919.

The assessment is made every five years by assessors for the state and the city assessment is taken from the state assessment.

In 1915 the assessment was in round figures $5,800,000. The increase in the value of real estate holdings during past five years therefore amounts to 2,270,900. A good part of the increase during the past five years, however, was due to the coming of the plant of the Virginia Shipbuilding Corporation to Alexandria.

Alexandria will receive in additional taxes over last year as a result of the new assessment approximately $28,000.

The new assessment was made by George S. French and Frank J. Pollard and they have been working for several months on the assessment.

The assessors have just turned their books over to the local board of tax review. The board held its first meeting last night and will now meet every night for the next ten nights and they propose to go over the books carefully and examine each individual assessment which they will give their personal attention to. The board either increases or reduces any assessment made by the assessors.

After the board completes its task of reviewing the assessment a copy of the book will be placed in the office of N. S. Greenaway, clerk of the court and will be open for the review of taxpayers, another copy will be placed in the office of Commissioner of Revenue C. H. Callahan and a third copy will be sent to the state auditor in Richmond.

It is stated that the assessors have made a general increase on most property throughout the city.

It is however, declared that the assessment is not regarded as particularly high as the assessors were guided in their work by the recommendation made by the state tax board in which the board warned all assessors not to be guided in their work by inflated values, inasmuch as their assessment will stand for a period of five years and there may be a depreciation before that time in certain classes of real estate.

The local board of tax review is composed of E. E. Lawler, C. S. Ballenger and James R. Caton.

Property holders have a right to appeal to the tax board of review for either an increase or a decrease of their assessment and if they are dissatisfied with the decision of the board they may appeal to the corporation court.

MEMORIAL TREES FOR DEAD SOLDIERS

Citizens' Association Favors Planting Them on Roads to Cemetery

DISCUSS AMBULANCE

Report Received on Market From Dr. Foulks—Commend City Council for Efforts to Get Water to Park

The planting of trees on the walks leading to the cemeteries of the city as a memorial to the soldiers from Alexandria who made the supreme sacrifice during the world war was discussed by the members of the Alexandria Citizens' Association at a meeting held last night in the Pythian Temple, 319 Cameron street.

The members of the association favored securing the trees from the Department of Agriculture. The matter was referred to the street committee of the association, members of this committee to confer on the subject with the presidents of the two respective branches of the city council.

A letter was submitted from Dr. Louis E. Foulks, city health officer, in which he stated that after inspecting the city market building he did not find anything that would prove a menace to public health. The building, however, he said was badly in need of paint and he added he had directed the market master's attention to barrels of dirt and trash exposed in conspicuous places.

The question of charging for the use of the new ambulance purchased for the Alexandria Hospital was discussed and referred.

The association commended the city council for their action regarding the laying of water mains in George Washington Park and urged that they insist that the Water Company proceed with the work.

The committee on weights and measures reported they had been assured this position would be filled within the next few days.

The time the street lights were turned on in the evenings and off in the morning was brought to the attention of the association and referred to the committee on lights.

Membership Drive

Red Cross Campaign Opened Today and Big Progress Made

Membership in the Red Cross means that you are helping to support American Ideals.

An active campaign for the renewal of memberships was started today by the committees representing Alexandria Chapter. Hundreds of memberships were sold by women stationed in the banks and stores.

The war work of the local chapter is creditable history and its Home Service Work since the signing of the Armistice makes a continuance most desirable.

People are now adjusting themselves to after war conditions. Soldiers and sailors returning home have depended upon the Red Cross for information of a general character, for legal advice; for medical attention; for the location of families and former friends, and in many instances for funds. An energetic and capable organization has met all these demands. Your Dollar Membership has made all this work possible and now the question put to every citizen is this: Can a community the size of ours fail to support work of this character which should and must be continued? The opportunity for service is to be appreciated and the Red Cross is an organization for service during peace times as well as war times.

There is no greater testimonial to character than the willingness of the men and women working for a Red Cross Membership of three thousand.

Many citizens will seek one of the many committees and ask for a receipt for One Dollar. In doing this you do your part and lessen the work for the committee.

HOPES FOR PARLEY IN BRITISH STRIKE

Neither Side to Dispute Willing to Make Any Advances

UNIONS' MARK TIME

Labor Party Takes Hand—See Opposition to Miners as Challenge to All Classes of Workmen

London, Oct. 21.—The day brought no developments in the coal strike, neither side to the dispute made any approach to the other, and no outside mediation was instituted.

It is still hoped that the proposal of William Brace, president of the South Wales Miners' Federation, may eventually lead to renewed negotiations, but it is admitted that it must first be adopted officially by the miners' executive, which has so far been impossible, as the members of the executive are scattered all over the country.

Advocacy by some extremists of withdrawing the pumping staffs from the mines finds few supporters among the miners generally. Robert Emillie and other leaders are strongly against it.

COX COOLLY MEETS FIRE OF QUESTIONS

Replies Aptly to the Liveliest Good Natured Heckling

VIEWS ON IRELAND

Favors Presentation of Self Determination Issue Before League of Nations Hears Hisses For Lodge

Providence, R. I., Oct. 21.—Probably the liveliest bombardment of questions during his campaign was experienced by Governor Cox, of Ohio here yesterday during an address to several thousand persons in the public square. Holding what he called a "town meeting," the Democratic Presidential candidate was plied with questions upon the League and the liquor and the Irish questions.

A woman asked the Governor his views regarding maintenance of the Volstead law. He asked whether she had put the same question to Senator Harding, his Republican opponent, and then reiterated that the Senator had voted "32 times wet and two times dry" and owned brewery stock.

Declaring again that he opposed any prohibition legislation "in conflict with the Constitution as interpreted by the Supreme Court of the United States," and that he had closed Ohio saloons on Sundays, the Governor said he had been elected Governor three times, adding:

"And the liquor interest never contributed a nickel to my campaign, then or now."

His statement that he favored presentation of the Irish question to the League was cheered and when he declared for "self determination," a man asked:

"Does that apply to Ulster?"

"Ulster is a part of Ireland," was the Governor's quick response.

Attacking Senator Harding's position upon the Irish question, Governor Cox added:

"During the last two weeks Republican speakers have been urged not to mention his name."

Charges that Senator Harding had taken numerous positions upon the League were reiterated by Governor Cox.

"Would you accept the Lodge reservations?" was another question.

"They were never seriously suggested," the candidate replied. "If they had been, Senator Lodge would have declared for them in the Republican platform."

The Governor added that he was "most interested" in the Hitchcock reservations.

Before the League became a political question, Governor Cox said, Senator Lodge, of Massachusetts had "indorsed it unreservedly."

Repeating his charge that Senator Lodge later formed the "basest and most infamous conspiracy" against the League, the Governor declared that the Republican leader was "the most despised man in America," and loud hisses from the audience followed mention of the Senator's name.

"I've been getting that for 10

ROOT'S FICTIONS.

A man as big as Elihu Root ought to be too big to stoop to the misrepsensations with which Will Hays and Gamaliel Harding hope to mislead Republican voters. It seems he is not, more's the pity.

The failure of the peace treaty is not due to the President of the Republican Senators. The treaty would have been ratified last March if the Republicans had voted for it with all of Lodge's nullifications. The Democratic Senators were so anxious to have something accomplished that 2: of them voted for the treaty with the nullifications, and the treaty would have received a two-third vote if Senator Knox and 11 other Republicans, not counting the Republicans who were paired against it, had voted for it.

It is not true that the President has resisted every change or modification or qualification in the treaty He assented to five reservations formulated by Senator Hitchcock. He approved of the Virginia platform which left room for amendments that should not destroy the effectiveness of the treaty, and this language of the Virginia platform was inserted in the Democratic national platform

Mr. Root says the treaty would impair the independence of the United States. He did not think of that when he offered five amendments, of which four were incorporated in the covenant. They dealt only with incidental features of the covenant or were explanitory. They did not affect the effectiveness of the treaty. Lodge, Taft and Roosevelt are on record as favoring a combination of nations to use military force, if need be, to prevent war.

If Mr. Root were right, 40 or more nations have already agreed to surrender their independence. Does anybody believe they did anything of the sort? Does anybody believe that England, France, Italy and Japan not to mention the minor ations would have ratified the treaty if it had impaired their sovereignty? In every general arbitration treaty and in every reciprocity treaty we have done what Mr. Root now says is an abridgment of American sovereignty.

Under the Monroe Doctrine every President would feel authorized to commit an act of war without consulting Congress, and several Presidents have threatened to do so, and the threat sufficed, so that it has never been necessary to fire a shot and the Monroe Doctrine has never been infringed. Theodore Roosevelt felt authorized to commit an act of war when he sent an armed force to save the petty Republic of Panama and warned Columbia to send no troops within 50 miles of the insurgents.

If 41 nations can ratify the treaty and enter the League of Nations, it is imbecile to pretend that we could not do so without sacrificing our independence, violating our Constitution, and subjecting ourselves to a "super-Government of the world."

THE HOSPITAL EXERCISES.

(Communicated.)

Mr. Editor, Alexandria Gazette:,

Through your valued paper I desire to voice the feelings of the large audience who witnessed the graduation exercises of the Alexandria Hospital nurses held in the Young People's Building on Thursday night.

It really was a most impressive occasion, and although I am not a native Virginian or "to the manner born" still it stirred ones blood to look upon such a scene. The hall was beautifully decorated with flowers and ferns and all the worthy men representing Alexandria's clergy, lawyers and doctors, presiding over the meeting and gathered upon the dais joined in commending the Alexandria Hospital as an up-to-date institution, conducted upon generous and philanthropic principles, presided over by many pious ladies as a board of managers with an enthusiastic junior auxiliary and last which should be first, by an able and devoted hospital staff of physicians and surgeons assisted by earnest nurses from the Hospital School. The ceremonies on this interesting occasion were conducted by Dr. Martin D. Delaney who graciously presented the speakers and added some glowing words of tribute to Miss Carter the accomplished superintendent of the Hospital. His remarks were warmly received and his well known presence added zest to the occasion. The orator of the evening was Mr. T. Randall Caton, a well known lawyer of the city, who delighted his audience with a brief allusion of his experience in the activities of the world war and by his encouragement to all connected with such a successful enterprise as the Alexandria Hospital.

Mr. Caton was followed by Dr.H McGuire, who bestowed the diplomas with some well directed remarks. being peculiarly prepared for this office having been for three years one of the instructors of the graduating class. The whole affair was concluded by appropriate music by the Citizens' Band. Also was the sweet vocal music rendered earlier in the evening by the Misses Howard. The final touch given to the solemnity of the graduation by the Rev. Dr. E T. Register, who bestowed upon the class of 1920 the friendly and Apostolic blessing. Truly old Alexandria has arisen from her long sleep with his brought blessings to many within her borders. May she long prosper in every good word and work.

MYSTERY IN A BOY'S FATE

Found Dead in Field With Bullet Wound in the Back.

Wilkes-Barre, Pa., Oct. 21.—Mystery surrounds the death of George Jenkiewicz, aged 12, of Bliss and Wells streets, Hanover, a school boy, whose body was found in a field between Middle road and Hanover yesterday afternoon by several boys rounding up cows which had been in pasture. The deputy coroner, who viewed the body last night, was emphatic in expressing the belief that it was not a case of suicide, as a small bullet was found to have entered the boy's back under the left shoulder and pierced the heart.

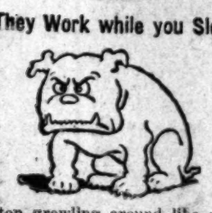
CASCARETS

"They Work while you Sleep"



Stop growling around like a cross bull pup. You are constipated, bilious, and what you need is Cascarets tonight sure for you liver and bowels. Then you will wake up wondering what became of your nervousness, dizziness, sick headache, bad cold, or upset, gassy stomach. No griping—no inconvenience. Children love Cascarets too. 10, 25, 50 cents.

This is a conservative estimate. The figures which will be produced by the Secretary of the Treasury in his annual report, will show a number in excess of 12,000, it is believed. It is felt certain that in the final accounting, as many as 10,000 owners of coupon bonds will be shown to have been deprived of their Government securities. The last official figures showed 7,563 persons having lost their bonds of which 6,038 were holders of coupon bonds. These figures are up to the close of the last fiscal year.

For those who have lost their coupon bonds, there is little relief. For those who have lost registered bonds, here is every probability of relief. And yet Government officials said today there were probably 50,000,000 coupon bonds still in the hands of purchasers.

COX COOLLY MEETS FIRE OF QUESTIONS

(Continued from Page One)

weeks," the Governor commented.

"Republicans favoring the League and supporting Senator [illegible] are 'conducting a joint debate with themselves," Governor Cox said, citing statements by former President Taft that League opponents were "firing at President Wilson."

A parade through the business section preceded the Governor's speech from a stand in front of the Federal building. It was the candidate's only Rhode Island speech.

Senator Gerry, Patrick H. Quinn, Democratic National Committeeman for Rhode Island, and other party leaders, were on the platform.

A large white rooster was presented to Governor Cox by admirers after his speech and he fondled the bird in his arms while the crowd cheered. He said he accepted the rooster as "an omen of victory." The governor had the bird taken aboard his train and penned in a compartment.

Hartford, Conn., Oct. 21.—Defeat of Senator Brandegee, Republican, was urged by Governor Cox, of Ohio, in a speech here late yesterday afternoon.

Addressing a crowd of several thousand persons, mostly women, in Foot Guard Hall, the Democratic Presidential candidate said that Senator Bandegee had signed "the infamous round robin of Senator Lodge, of Massachusetts.

"Do what Massachusetts would like to do," said Governor Cox, "leave Senator Brandegee in Connecticut."

When Senator Brandegee's name was spoken there was widespread hiss ing from the audience and cheers when Governor Cox urged election of Senator Brandegee's Democratic opponent.

The Governor's statement regarding the Irish question was given prolonged applause as was his recital of an indorsement of the League by Pope Benedict.

Referring to Senator Harding's statement regarding a new association of nations, Governor Cox said that France had denied sending any representative to the Senator.

With apparent reference to today's denial by Senator Harding's publicity manager that Maurice de Kobra, a French author named yesterday by Governor Cox as Senator Harding's French visitor, Governor Cox added:

"The policy apparently has been developed of keeping him (Mr. Harding) at Marion and not permitting him to go outside the bounds of the guards that surround him."

Secretary Baker Says:

HAVING in mind the splendid services rendered by the American Red Cross to the military establishment during the recent World War, and during the period of demobilization, it is only fitting and proper that I should extend my good wishes for the success of the Fourth Red Cross Roll Call, which is to be inaugurated on Armistice Day, November 11, 1920, and extend through Thanksgiving Day.

"The Fourth Red Cross Roll Call presents an opportunity to the American people to renew their allegiance to this great humanitarian organization. I have no doubt that the officers and enlisted men of the Army, as well as those formerly in the service, will take advantage of the occasion by showing their appreciation of all that was done by the Red Cross for their contentment and well-being during the war.

"The American Red Cross is endowed with a great amount of potential energy, which is always available when needed in a national crisis. At the present time you are carrying on a well defined program with the peace-time Army, pursuant to my request of November 26, 1919. The need for such service still exists, and it is my desire, and that of my military associates, that the Red Cross should continue to serve as a medium of communication between the people of the United States and its Army."

HOPES FOR PARLEY IN BRITISH STRIKE

(Continued from Page One.)

One effect of the coal strike will

Renewed efforts were made at the Ministry of Labor today, through negotiations by the parties concerned, to avert a strike on the railroads and in the transport industry. The negotiations, however, were adjourned until tomorrow.

The National Union of Railwaymen the executive of the transport workers and the parliamentary committee of the Trades Union Congress all held meetings this morning to consider their attitude toward the coal strike, but thus far no decisions have been taken. The greatest importance attached to the National Union of Railwaymen's meeting, which was a full delegates' conference with power to declare a sympathetic strike without referring the matter to the union members.

After approximately two hours of discussion James Henry Thomas, general secretary of the Railwaymen's Union, said the whole situation had been reviewed and adjournment taken until Thursday. The executive of the transport workers and the Trades Union committee continued their meetings this afternoon.

Difference of opinion prevails among the railroad men, some of the delegates having come to the meeting with instructions from their branches to use every effort to secure a peaceful settlement, while other delegates were armed with resolutions by their members demanding a sympathetic strike. Mr. Thomas personally desires peace, it is declared, but has a strong minority of the organization's executive working against him.

The railway clerks of Wales have wired Secretary Thomas their emphatic disapproval of the instructions they have received to remain neutral, and they adopted a resolution urging the clerks to link up with the other unions in support of the miners, even to the extent of leaving their work.

The National Council of the Independent Labor party adopted a resolution today expressing grave apprehension over the attitude of the Government toward the miners, conveying, as it does, an aggressive challenge to the whole working class movement. The resolution requests the Labor party to convene a special conference.

The position of the National Union of Railwaymen this morning was regarded by officials as particularly difficult, inasmuch as the miners have not officially appealed for a strike by the railwaymen in support of the miner's cause. It also is pointed out that the railway delegates realized that anything might happen within a day or two in the way of renewed negotiations, and that an immediate call to strike might not only be premature, but unnecessary. The delegates, therefore, decided to delay their decision.

Increased production, remarked the Chancellor, was a necessary condition for a permanent reduction in the cost of living, and whatever the immediate effect of the strike might be on prices it must in the long run be injurious to the national well-being.

Official estimates of the number of persons thrown out of employment in other industries as the result of the coal strike are lacking, but newspaper estimates place the number at 100,000 at least, with the total growing steadily.

Reports from Morriston, near Swansea, Wales, state that many of the steel workers there who have been made idle by the strike have decided to emigrate to Canada at an early date.

Thomas Ashton, general secretary of the miners, in a speech at Manchester today said that if the premier called the mine owners and the miners' officials into conference with regard to getting more production of the mines, the first meeting would give the premier all the guarantees to increased output he needed. The miners' leaders were willing, Mr. Ashton said, to attend such a conference.

There would be an increase in the cost of living, owing to the decline in the value of the pound sterling and the increased cost of inward bound freights, caused by the diminution of exports, declared Austen Chamberlain, Chancellor of the Exchequer, in answering a question in the House of Commons today.

TRAIL OF CONVICTS IS LOST

Warden of Sing Sing Believes Men Escaped To Country.

Ossining, N. Y., Oct. 21.—All trace apparently has been lost of George Stivers and Marcus Bassett, who escaped from Sing Sing Prison Saturday night and who were thought to have been seen in Connesticuit. Warden Lawes, who aided personally in the search for the fugitives, went to Albany yesterday to attend a hearing in connection with the budget for Sing Sing for 1921. Before leavig he said he was positive that the men seen in Connecticuit were the escaped prisoners. He also expressed the belief that the men are hiding in the country.

Connecticuit police and New York State troopers are continuing the hunt.

WOMAN MURDERED IN HOTEL

Man Who Registered With Her Missing—Indicates Fight.

San Francisco, Oct. 21.—Entering a room at the Knickerbocker Hotel Wednesday, a chamoermaid found a pretty young woman, partly dressed, dead on the bed.

The girl's hands were tied behind her and an ugly wound scarred her forehead. She wore dainty silk lingerie and her clothing was well made. She was registered Tuesday night by a man who signed for "R. E. Donaldson and wife."

The condition of the room revealed that a fierce fight had taken place. Finger prints on the window still lead the police to believe the man left the room by the fire escape.

GIRL DENTIST SHOT DEAD

Killed by Classmate She Refused to Wed, Say Police

New York, Oct. 21.—Dr. Max Rowe, a New York dentist, today entered the Brooklyn dental office of Dr. Ruth Rubin, a college classmate, and shot her to death after she had refused to marry him, according to a police headquarters announcement.

Then Rowe shot himself in the head and his condition is said to be critical

Matinee Idol? Ain't No Such Thing Any More.

New York, Oct. 21.—Matinee idol?

"They ain't no such animal," in the candid opinion of William Faversham, once idol of the sweet young things who attend the 2:15 P. M. shows. Now Faversham is a Selznick movie star.

"Once I got a hat, because a man liked me in the 'Squaw Man.' It was a good hat," said Faversham, "and a fellow sent me a revolver once with six notches. I still have the pistol, but no more notches. But I never had a room full of scented notes and flowers and that sort of thing."

If the matinee idol ever existed, he's gone with the Dodo, the Great Auk and the bison, thinks Faversham.

RAIDING DRY AGENT SHOT

Baltimore Saloonkeeper Accused of Wounding R. G. Davidson.

Baltimore, Md., Oct. 21.—Robert G. Davidson, of this city, a United States revenue agent, was shot and wounded last night in a raid on the saloon of Hyman Kitnes. Two other agents, Frank Rafferty, of this city, and Fred T. Rose, of Washington, after a hard fight, subdued Kitnes, who is alleged to have done the shooting.

Nine bottles of alleged liquor confiscated by the agents also are at the station awaiting analysis.

Only the Man Moves in Peru's New Dance.

New York, Oct. 21.—They have a new dance in Peru.

But American men are not spry enough to do it, according to Ethel Lazneh, who described the dance upon her arrival here yesterday on the steamship Santa Louisa.

The dance is called the Tambourina. The man has to cover a lot of ground, but the girl hardly moves her feet at all.

Sugar Indictments Returned.

Houston, Tex., Oct. 21.—Indictments charging seven wholesale grocery companiees with profiteering in sugar and the sugar land industries, and eleven wholesale grocery companies of Houston and elsewhere with conspiracy to keep sugar off the market were returned by the Federal grand jury here yesterday.

COX TRAIN JINX GIVES ENGINEER LEAP FOR LIFE

Blackstone, Mass., Oct. 21.—The engineer of Gov. Cox's train in the New Haven lines jumped from the locomotive yesterday to avoid being burned when a valve broke and steam burst into the cab. Before jumping the engineer set the brakes to prevent the train from running away. He was slightly burned.

The governor's special was brought here by a freight engine.

Former King Alexander Of Greece Reported Better

Athens, Oct. 21.—King Alexander passed a better night and a slight improvement was noted, it was announced here yesterday. The condition of lung congestion remained stationary. The wound caused by the bite of the monkey is improving, but an examination of liquid extracted from his lungs showed the presence of pneumonia germs.

FIND 42 STOWAWAYS

New York, Oct. 21.—Forty-two stowaways who boarded steamship Logan in Naples, were removed under a heavy military guard when the vessel arrived here yesterday. The stowaways attempted to make a break for freedom as the Logan docked and a hurry call was sent to the army transportation service for help. A platoon of soldiers responded and the men were transported under guard to Ellis Island.

According to immigration officials, the Logan's cargo of stowaways breaks all records in stowaway traffic. Officer of the ship said the men came aboard ship one by one at Naples and were not discovered in the hold of the ship until the vessel was well on the way to New York.

Officials of the Phelps line, which operates the Logan, said they believed there is a well-organized "ring" in Italian ports which is systematically attempting to smuggle immigrants into America. Some of the men who arrived yesterday had previously been in this country.

This estimate was made in compliance with the law establishing a tax on patrimony, and the tax the King will pay will amount to about $1,-00,000. The estate of the Queen is valued at only 1,000,000 lire.

Haitien Investigation, Friday.

Washington, Oct. 20.—Sweeping investigation of the conduct of Marines in Haiti, particularly with reference to charges of illegal killings, is ordered in Secretary Daniels precept to the recently appointed court of inquiry made public recently. The court, headed by Rear-Admiral Mayo, was ordered to convene here next Friday and its subsequent proceedings will be on its own motion.

It was generally believed the board would decide upon Haiti as the logical place to conduct the investigation.

The precept specifically directs that the board investigate grounds for the allegation by Brig. Gen. George Barnett, former Marine commandant that there "had been practically indiscriminate killings going on for some time" in Haiti.

The precept directs that the inquiry cover the entire peroid of American occupation. That the "degree of responsibility attached to each and every person" responsible for such unjustifiable acts, if any, also is to be fixed by the court.

Denton's Murder Laid To Woman and Man.

Los Angeles, Cal., Oct. 20.—A woman and a man killed Jacob Charles Denton, wealthy mining promoter, June 2 last, after the woman had been shot in the shoulder by Denton as he sat with this woman at breakfast, according to a story Mrs. R. C. Peete, of Denver, Col., told deputy district attorneys here yesterday.

"Definite action" is expected from the Los Angeles county grand jury when it resumes its investigation of Denton's death, W. C. Doran, chief deputy district attorney, announces in a statement last night.

Mrs. Peete, formerly a tenant or housekeeper in the Denton home, where his body was found buried in a cellar September 23, said the woman she involves in Denton's death and the mining man quarreled throughout the night of June 1, according to the deputy prosecutors. While Denton and the woman were seated at breakfast, according to the version of Mrs. Peete's story made public, he shot the woman in the shoulder and then left the house. In Denton's absence, Mrs. Peete said the woman telephoned a man, who hurriedly came to the Denton home. Denton returned an hour later, she said, and at about 5 o'clock that morning the woman and man killed him, binding and hiding the body in the cellar crypt, where it was later found.

Call of the Wild Makes Girl of 13 Runaway Is Claim.

Kansas, City, Mo., Oct. 21.—The call of the wild sounded strong in the heart of Audre Galloway, 13-year-old adopted daughter of E. S. Galloway. She is part Indian.

Audre was returned home yesterday after an absence of four nights. A barking dog led searching parties to a bench near a large wooded park. The girl was sleeping on the ground under the bench, with a bundle of clothes for a pillow and an extra coat for covering. Beside her were a loaf of bread, a box of cookies and some other food she had gathered in nearby fields.

The girl explained she had lived in the woods, using the bench for a tent.

Galloway said he adopted the girl at Lawton, Okla. He attributed her actions to "Indian instincts."

Kitchen Huts, Said Provided by New Autos in France.

Paris, Oct. 21.—Automobile manufacturers are attempting to solve the housing crisis by manufacturing [illegible] which, like Pullman cars, can be transformed into sitting or bedrooms and which also contain small kitchenettes and bathrooms.

Considering the number of people in France who wish to marry but can't do so because they can't find any apartments or houses to live in, the new automobile apartment should prove a boom.

Honeymoons will be but a delightful shifting of scenery entirely at will, while settling down at home loses all terrors.

An attractive site is chosen a little out of the city. Here the automobile stays at night. In the morning hubby and wife go to town together, he being brought to the office, she to the department store, her house waiting for her outside while she shops. Business men's lunches at home become the ordinary thing.

As A "Kidder" Ex-Senator Lewis Is A Politician.

Chicago, Oct. 21.—Former Senator James Hamilton Lewis, Democratic candidate for Governor of Illinois, while eating breakfast in Litchfield procured a second cup of coffee from Ruby Lynn, the demure waitress, saying:

"Ah, my dear, when I gaze upon your wealth of chestnut hair (Ruby had been doing obvious gazing upon Mr. Lewis' copious marcels) which the rays of a beneficent and salubrious sun have kissed into delicate gold; when I observe the little dimple nestling so soyly in that shapely chin, I rejoice that the committee whose work it was to pick my itinerary should place the town of Litchfield on the list. Ruby, you may bring me a cup of coffee if you please."

To which Ruby replied:

"You know, Senator, I have been kidded by experts."

British Columbia Ends Prohibition.

Vancouver, B. C., Oct. 21.—Incomplete returns in the special election in the province of British Columbia last night indicated a victory for the "wets," with a majority in excess of 10,000 votes, which will give the liquor-selling monopoly to the government. The vote was the heaviest cast in the history of the province, women far out-numbering the men at the polls.

The victory of the "moderationists" will mean a generous system of government sale of liquor in state dispensaries. Details of the scheme under government control have not yet been worked out.

Manila, P. I., Oct. 21.—The Philippine senate has adopted an amendment to the election law providing for prohibition of all liquors throughout the islands for five weeks preceding the general elections which occur every three years. The amendment goes to the house.

New York, Oct. 21.—Federal Judge Mayer announced yesterday that the four Federal district court judges here had agreed upon a general policy of rigid enforcement of the prohibition law by imposing fines ranging from $100 to $2,000 or jail terms of 90 days to five years, or both

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Your Druggist has been appointed agent for Allenrhu in this vicinity with the understanding that he will freely return the purchase money on the first two bottles to all who state they received no benefit.
